

# WAPI's 18th Annual Interdisciplinary CME Conference

1/1/2020

WAPI CME EVALUATION TOOLS

TOPIC: Personalizing HIV treatment and prevention in 2020	Not at all /Poor ←————→ Very Much/Excellent						
SPEAKER: Rena Patel MD ,MPH	1	2	3	4	5	6	
Was the Content Relevant to my Work or Practice							
Rate the Quality of Each Presentation?							
Your Comments regarding this Lecture:							
Please rate your agreement with the following statements based on your experience with this conference.				No	Not Sure	Some what	Yes
The following Objectives were met							
1	Recognize currently recommended options for initial HIV treatment regimens.						
2	Recognize currently recommended options for HIV prevention; and						
3	Drug-drug interactions and other management considerations for a non-HIV specialist.						
There was adequate opportunity to ask questions during the activity							
The content was free of commercial bias							
The information presented in this educational activity enhanced my current knowledge							
The information presented in this educational activity provided new ideas or information I expect to use							
The information presented in this educational activity addressed competencies identified by my specialty							
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?							
List one thing you intend to change in your practice as a result of the information you received from this activity.							
How do you think these changes will affect your patient outcomes?							

TOPIC: The current landscape for viral hepatitis and non-alcoholic fatty liver disease in the United States		Not at all /Poor ← → Very Much/Excellent						
SPEAKER: Channa Jayasekara MD		1	2	3	4	5	6	
Was the Content Relevant to my Work or Practice								
Rate the Quality of Each Presentation?								
Your Comments regarding this Lecture:								
Please rate your agreement with the following statements based on your experience with this conference.					No	Not Sure	Some what	Yes
The following Objectives were met								
1	Discuss the epidemiology of chronic viral hepatitis and non-alcoholic fatty liver disease in the United States, including in specific population sub-groups							
2	Correctly interpret viral hepatitis serologies and put serologies into clinical contexts such as a) treatment indicated, b) monitor, c) at risk for disease reactivation, d) prior exposure with viral clearance.							
3	Identify current therapeutics for hepatitis B and C and Washington State's effort to eliminate hepatitis C by 2030							
4	Describe novel therapeutic targets for hepatitis B and for non-alcoholic fatty liver disease							
There was adequate opportunity to ask questions during the activity								
The content was free of commercial bias								
The information presented in this educational activity enhanced my current knowledge								
The information presented in this educational activity provided new ideas or information I expect to use								
The information presented in this educational activity addressed competencies identified by my specialty								
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?								
List one thing you intend to change in your practice as a result of the information you received from this activity.								
How do you think these changes will affect your patient outcomes?								

TOPIC: Testicular cancer 101		Not at all /Poor ← → Very Much/Excellent						
SPEAKER: Rohan Sharma MD		1	2	3	4	5	6	
Was the Content Relevant to my Work or Practice								
Rate the Quality of Each Presentation?								
Your Comments regarding this Lecture:								
Please rate your agreement with the following statements based on your experience with this conference.					No	Not Sure	Some what	Yes
The following Objectives were met								
1	Identify current screening recommendations for testicular cancer							
2	Basic Classification and Treatment recommendations for testicular cancer							
3	Toxicity and Survivorship Concerns for testicular cancer patients							
There was adequate opportunity to ask questions during the activity								
The content was free of commercial bias								
The information presented in this educational activity enhanced my current knowledge								
The information presented in this educational activity provided new ideas or information I expect to use								
The information presented in this educational activity addressed competencies identified by my specialty								
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?								
List one thing you intend to change in your practice as a result of the information you received from this activity.								
How do you think these changes will affect your patient outcomes?								

TOPIC: Personalized treatment of early stage breast cancer		Not at all /Poor ←————→ Very Much/Excellent					
SPEAKER: Swathi Namburi MD		1	2	3	4	5	6
Was the Content Relevant to my Work or Practice							
Rate the Quality of Each Presentation?							
Your Comments regarding this Lecture:							
Please rate your agreement with the following statements based on your experience with this conference.				No	Not Sure	Some what	Yes
The following Objectives were met							
1	Define the role of chemotherapy in early stage breast cancer.						
2	Demonstrate the use of genomic predictors to personalize therapy						
3	Describe the personalization of HER2 directed therapy in early stage breast cancer						
There was adequate opportunity to ask questions during the activity							
The content was free of commercial bias							
The information presented in this educational activity enhanced my current knowledge							
The information presented in this educational activity provided new ideas or information I expect to use							
The information presented in this educational activity addressed competencies identified by my specialty							
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?							
List one thing you intend to change in your practice as a result of the information you received from this activity.							
How do you think these changes will affect your patient outcomes?							

TOPIC: Women and Veins		Not at all /Poor ← → Very Much/Excellent						
SPEAKER: Kathy Gibson MD		1	2	3	4	5	6	
Was the Content Relevant to my Work or Practice								
Rate the Quality of Each Presentation?								
Your Comments regarding this Lecture:								
Please rate your agreement with the following statements based on your experience with this conference.					No	Not Sure	Some what	Yes
The following Objectives were met								
1	Be able to differentiate between types of contraception and their risks of venous thromboembolic events.							
2	Describe the typical presentation of a woman with symptomatic pelvic venous reflux (pelvic congestion syndrome).							
3	Outline treatment options for patients with symptomatic varicose veins							
There was adequate opportunity to ask questions during the activity								
The content was free of commercial bias								
The information presented in this educational activity enhanced my current knowledge								
The information presented in this educational activity provided new ideas or information I expect to use								
The information presented in this educational activity addressed competencies identified by my specialty								
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?								
List one thing you intend to change in your practice as a result of the information you received from this activity.								
How do you think these changes will affect your patient outcomes?								

TOPIC: MSK Ultrasound	Not at all /Poor ←→ Very Much/Excellent					
SPEAKER: Atul Gupta MD	1	2	3	4	5	6
Was the Content Relevant to my Work or Practice						
Rate the Quality of Each Presentation?						
Your Comments regarding this Lecture:						
Please rate your agreement with the following statements based on your experience with this conference.	No	Not Sure	Some what	Yes		
The following Objectives were met						
Define the place for ultrasonography within the spectrum of care for musculoskeletal pathologies.						
Discuss when to consider regenerative medicine therapies for musculoskeletal pathologies.						
Describe when to order an MRI versus an ultrasound for musculoskeletal pathologies.						
There was adequate opportunity to ask questions during the activity						
The content was free of commercial bias						
The information presented in this educational activity enhanced my current knowledge						
The information presented in this educational activity provided new ideas or information I expect to use						
The information presented in this educational activity addressed competencies identified by my specialty						
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?						
List one thing you intend to change in your practice as a result of the information you received from this activity.						
How do you think these changes will affect your patient outcomes?						

TOPIC: Selecting disease-modifying anti-rheumatic drugs for rheumatoid arthritis		Not at all /Poor ←————→ Very Much/Excellent					
		1	2	3	4	5	6
SPEAKER: Amish J Dave MD							
Was the Content Relevant to my Work or Practice							
Rate the Quality of Each Presentation?							
Your Comments regarding this Lecture:							
Please rate your agreement with the following statements based on your experience with this conference.		No	Not Sure	Some what	Yes		
The following Objectives were met							
1	Describe the roles of the rheumatologist and primary care provider in diagnosing rheumatoid arthritis						
2	Identify the mechanisms of action of biologic and non-biologic disease-modifying anti- rheumatic drugs used to treat rheumatoid arthritis						
3	Compare differences in outcomes and extraarticular manifestations of rheumatoid arthritis in patients with seropositive and seronegative rheumatoid arthritis						
There was adequate opportunity to ask questions during the activity							
The content was free of commercial bias							
The information presented in this educational activity enhanced my current knowledge							
The information presented in this educational activity provided new ideas or information I expect to use							
The information presented in this educational activity addressed competencies identified by my specialty							
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?							
List one thing you intend to change in your practice as a result of the information you received from this activity.							
How do you think these changes will affect your patient outcomes?							

TOPIC: Managing inflammatory bowel disease in the era of personalized medicine		Not at all /Poor ←————→ Very Much/Excellent					
		1	2	3	4	5	6
SPEAKER: Tim Zisman MD							
Was the Content Relevant to my Work or Practice							
Rate the Quality of Each Presentation?							
Your Comments regarding this Lecture:							
Please rate your agreement with the following statements based on your experience with this conference.		No	Not Sure	Some what	Yes		
The following Objectives were met							
1	Review natural history and complications of IBD and how they impact treatment approach.						
2	Describe considerations in selecting therapy for patients with IBD						
3	Discuss strategies to optimize short- and long-term response to medication in IBD						
There was adequate opportunity to ask questions during the activity							
The content was free of commercial bias							
The information presented in this educational activity enhanced my current knowledge							
The information presented in this educational activity provided new ideas or information I expect to use							
The information presented in this educational activity addressed competencies identified by my specialty							
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?							
List one thing you intend to change in your practice as a result of the information you received from this activity.							
How do you think these changes will affect your patient outcomes?							

TOPIC: Role of IR in treatment of progressive Parkinson's disease	Not at all /Poor ← → Very Much/Excellent					
SPEAKER: Sanjiv Parikh	1	2	3	4	5	6
Was the Content Relevant to my Work or Practice						
Rate the Quality of Each Presentation?						
Your Comments regarding this Lecture:						
Please rate your agreement with the following statements based on your experience with this conference.			No	Not Sure	Some what	Yes
The following Objectives were met						
Describe treatment of Progressive Parkinson's Disease.						
Describe Dopa Gel pump via dedicated Gastrojejunostomy tube						
Discuss Efficacy of Dopa Gel						
There was adequate opportunity to ask questions during the activity						
The content was free of commercial bias						
The information presented in this educational activity enhanced my current knowledge						
The information presented in this educational activity provided new ideas or information I expect to use						
The information presented in this educational activity addressed competencies identified by my specialty						
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?						
List one thing you intend to change in your practice as a result of the information you received from this activity.						
How do you think these changes will affect your patient outcomes?						

TOPIC: Targeted Therapies in Neurology		Not at all /Poor ← → Very Much/Excellent						
SPEAKER: Leo H. Wang M.D., Ph.D.		1	2	3	4	5	6	
Was the Content Relevant to my Work or Practice								
Rate the Quality of Each Presentation?								
Your Comments regarding this Lecture:								
Please rate your agreement with the following statements based on your experience with this conference.					No	Not Sure	Some what	Yes
The following Objectives were met								
1	Discuss Basic Pathology behind disease -							
2	Describe Therapeutic development based on pathology							
3	Analyze Cost and efficacy of treatment							
There was adequate opportunity to ask questions during the activity								
The content was free of commercial bias								
The information presented in this educational activity enhanced my current knowledge								
The information presented in this educational activity provided new ideas or information I expect to use								
The information presented in this educational activity addressed competencies identified by my specialty								
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?								
List one thing you intend to change in your practice as a result of the information you received from this activity.								
How do you think these changes will affect your patient outcomes?								

<b>TOPIC: Making a difference in diabetes: evaluating etiology and facing fears and falsehoods</b>		Not at all /Poor ←————→ Very Much/Excellent					
<b>SPEAKER: Janet Leung MD</b>		1	2	3	4	5	6
Was the Content Relevant to my Work or Practice							
Rate the Quality of Each Presentation?							
Your Comments regarding this Lecture:							
Please rate your agreement with the following statements based on your experience with this conference.		No	Not Sure	Some what	Yes		
The following Objectives were met							
1	Compare how risk factors for diabetes in South Asian populations differ from US (with majority Caucasian ethnicity)						
2	Discuss when to consider evaluating for T1DM in adult onset diabetes, T2DM in childhood onset diabetes, and pancreatic (Type 3c) diabetes						
3	Outline misconceptions patient (and their communities) have about T1DM and T2DM and how that can affect management						
There was adequate opportunity to ask questions during the activity							
The content was free of commercial bias							
The information presented in this educational activity enhanced my current knowledge							
The information presented in this educational activity provided new ideas or information I expect to use							
The information presented in this educational activity addressed competencies identified by my specialty							
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?							
List one thing you intend to change in your practice as a result of the information you received from this activity.							
How do you think these changes will affect your patient outcomes?							

<b>TOPIC: Planning for the worst: code status, POLST, and advance care planning</b>		Not at all /Poor ← → Very Much/Excellent					
<b>SPEAKER: Hope Wechkin, MD</b>		1	2	3	4	5	6
Was the Content Relevant to my Work or Practice							
Rate the Quality of Each Presentation?							
Your Comments regarding this Lecture:							
Please rate your agreement with the following statements based on your experience with this conference.		No	Not Sure	Some what	Yes		
The following Objectives were met							
1	Describe options for care in section B of the POLST form based on location of care.						
2	Identify the survival-to-discharge rate of out-of-hospital cardiac arrest.						
3	Identify a tool for advance care planning for patients with dementia.						
There was adequate opportunity to ask questions during the activity							
The content was free of commercial bias							
The information presented in this educational activity enhanced my current knowledge							
The information presented in this educational activity provided new ideas or information I expect to use							
The information presented in this educational activity addressed competencies identified by my specialty							
Do you intend to make changes or apply what you've learned to your practice as a result of attending this activity?							
List one thing you intend to change in your practice as a result of the information you received from this activity.							
How do you think these changes will affect your patient outcomes?							

<b>TOPIC: Role of IR in treatment of Progressive Parkinson’s Disease</b> <i>10-minute clinical vignettes</i>	Not at all /Poor ← → Very Much/Excellent
---	--

**SPEAKER: 10-MINUTE CLINICAL VIGNETTES – Sanjiv Parikh**

Please rate your agreement with the following statements based on your experience with this conference.	No	Not Sure	Some what	Yes
Foster your interest in this subject				
Relevance of Patient case to disease state topic				
Continuity of presentation: patient to disease state topic				
Appropriate balance of emphasis: patient to topic				
Appropriate utilization of time allotted				
Your Comments				

<b>TOPIC: Personal Approach to Healthy Living</b> <i>10-minute clinical vignettes -</i>	Not at all /Poor ← → Very Much/Excellent
--	--

**SPEAKER: Happy Walia DDS**

Please rate your agreement with the following statements based on your experience with this conference.	No	Not Sure	Some what	Yes
Foster your interest in this subject				
Relevance of Patient case to disease state topic				
Continuity of presentation: patient to disease state topic				
Appropriate balance of emphasis: patient to topic				
Appropriate utilization of time allotted				
Your Comments				

**TOPIC: Sleep Hygiene**

10-minute clinical vignettes -

Not at all /Poor ←→ Very Much/Excellent

**SPEAKER: Ashish Trivedi MD**

Please rate your agreement with the following statements based on your experience with this conference.	No	Not Sure	Some what	Yes
Foster your interest in this subject				
Relevance of Patient case to disease state topic				
Continuity of presentation: patient to disease state topic				
Appropriate balance of emphasis: patient to topic				
Appropriate utilization of time allotted				
Your Comments				

**Please provide general comments regarding this activity and suggest how it might be improved**

**Suggestions for future topics:**
