

<b>TOPIC:</b>	HELLP SYNDROME
<b>SPEAKER:</b>	SANJIV PARIKH
<b>TITLE:</b>	SWEDISH INTERVENTIONAL RADIOLOGY
<b>AFFILIATION</b>	SWEDISH
<b>TIME:</b>	10 minutes

**CME OBJECTIVES**

State at least two things that participants should be able to do after they participate in this CME activity

**Upon completion of this activity, attendees should be able to:**

- 1 Describe HELLP Syndrome – a catastrophic Pregnancy complication
- 2 Discuss Management of HELLP syndrome

**The ACCME does not want you to use the words** - think, understand, know, appreciate, learn, comprehend, be aware of, be familiar with, etc. as they are not measurable.

**You can use words such as** Analyze, Categorize, Classify, Compare, Conclude, Construct, Critique, Define, Demonstrate, Describe, Discuss, Evaluate, Identify, List, Name, Outline, Show

**MEASURING YOUR SUCCESS:**

Will use pre-and post CME activity questionnaire to measure success.

Please provide 3 questions and answers that will be asked to the audience before and after your talk. The answer to these questions should be in your presentation. Please highlight the correct answer and limit your possible answers to a maximum of 4 with only one correct answer. The others can be partially correct or wrong
