

WAPI's 18th Annual Interdisciplinary CME Conference

1/1/2020

CME NEEDS ASSESSMENT

We conducted this assessment from many sources of information. We used the following methods

Method:		Example of required documentation:
x	Previous participant evaluation data	Copy of tool and summary data – <i>see at end of document</i>
	Research/literature review	Abstract(s) or articles
x	Expert Opinion	Summary
x	Target audience survey	Copy of tool and summary data
	Regulatory body requirements	Requirements summary
	Data from public health sources	Abstract, articles, references
	Other (describe)	

We first drafted a CME Needs Assessment Survey to help us obtain this info. The form is seen at the end of this document, we then got physicians to fill this form and tabulated the answers. We got this from 2 sources,

- At our previous CME meetings, we had conducted an outcome survey which included what topics they would like to hear more about that would help them in their practice. We then got this info.
- We also asked the governing body members of WAPI which represents various specialties to suggest topics
- The CME committee then made the final decision to pick the topics from this list for this year's CME.

TOPIC: SPEAKER	
	<i>Practice Gap Analysis – Current Situation</i>
TOPIC: SPEAKER	
	<i>Practice Gap Analysis – Current Situation</i>

WAPI, an organization that is driven by the consensus of its members that has the following mission:

To provide an umbrella organization to bring together American Physicians, Dentists and Allied Healthcare Professionals of Indian Origin, defining Indian in the broad sense of Indian Ancestry; to provide a conduit to strive to be an exemplary strong ethnic group of professionals with a mission to serve the community by their expertise, cultural heritage and charitable work; to provide high educational and social services to its members. We envision this to be a collegial organization with actively participating members,

who believe in its mission and are willing to further its cause.
